OUR BELIEFS

# OUR BELIEFS

**When designing the SCC experiences to facilitate and scaffold the holistic development of our students, our primary concern is what goes on in the minds and hearts of our students.**

**The SCC curriculum planning process begins with the belief that our children are curious, active and competent learners. This belief underscores the types of SCC experiences we design and the resources we select for the students.**

- **Children develop holistically and learn as a whole**
- **Children learn best when they are actively involved in the construction of knowledge**
- **Every child can learn and each child learns differently**
- **Children's development is influenced by the different social and cultural contexts they live in**
- **Children develop and learn best when they feel safe and valued**
