20 January 2025

**Primary 1 Non-weighted Assessments**

Dear Parents/Guardians

Assessment is an integral part of the learning process; offering information to support our pupils in their educational journey. Assessments for Primary 1 pupils are non-weighted, with the primary intent of checking for understanding.

We want to encourage our pupils to focus on the process of learning, enjoy learning and experience success along the way. To promote this approach, subject teachers may use a variety of assessment tasks depending on the learning and progress of our pupils. We would like parents to also note that there is no fixed schedule for the non-weighted assessment tasks. We seek your understanding and support to allow the natural process of learning to take place for our pupils in class and out of class in a non-stressful environment.

Thank you.

Warm regards

Mr Dennis Yap  
Principal
