Screenguide Parents Workshop for P4 to P6 Parents

Dear Parents,

Greetings from Farrer Park Primary School. We would like to invite you to take part in this workshop on the use of Screenguide at home.

Date: Friday 17 February

Time: 5.00pm to 6.00pm (on Zoom)

Our school utilizes Mosyle Manager, Mobile Device Management (MDM) system, that helps us to ensure your child's learning device is kept up to date with the apps needed for school. It also helps to maintain a consistent learning environment in the school by the implementation of a school profile during school hours and then converting to a home profile after school hours.

Screenguide is the accompanying app that allows parents more freedom to manage how their children's learning device is used during the after school hours. It allows parents to manage control of items like their children's screen time, hide or show apps and website access.

Some of you might already be using this app at home and might need a refresher. In this session, we will cover how to connect to your child's device as well as review the different device management options provided by this application.

You can register for **either session** via the QR Code or the link below:

<https://forms.moe.edu.sg/forms/Jqpxav>

Your continuing support is important to us as we strive to educate your child for the future.

Warm regards

Mr Shawn Chak
