Term 3

Year 2022

From the Principal's Desk
Calendar for Term 3

Hello everyone,

A friend of mine shared with me that she had paid \$75 for 2 hours to someone to teach her children how to ride a bicycle. I was surprised that she had done that. Riding a bicycle is not like swimming nor skating where there are specific strokes or techniques to learn? Cycling?

My friend explained that balancing on a bicycle is the hardest! I thought for a while and agreed. Because it is indeed very natural for anyone learning to ride a bicycle to look down and worry exceedingly about falling off the two-wheeler!

How to balance? She asked me. I told her, I don't know what techniques her kids were taught; but for me, to balance, one only needs to look straight ahead – look forward. Don't look down. Don't look back, of course! Keep pedaling. Keep a steady pace. When we do that, have faith that your bicycle will simply balance itself and move. Even when we fall, we simply pick ourselves up, get on the pedals and ride again! That's how I had learned to ride a bicycle in my childhood days.

Oh... but isn't that the same in everything, and in life? Balance, look straight ahead and look forward; have faith. Even when we fall, don't fret, pick ourselves up and keep moving, keep a steady pace!

So, to all our pupils, as we continue in this second semester of 2022, my encouragement to you, and to everyone, including myself, is to keep good balance by looking straight ahead and enjoy the learning every day. Enjoy even the falling!

Life is like riding a bicycle. To keep your balance you must keep moving.
